

# SOCIAL MIXERS!

## *Why Gamble That People Will Meet Each Other When We Guarantee It!*

People are coming from different places across the country, the world, or maybe just different departments, and you want them to “get to know each other.” Forget about the usual standing around in a stuffy conference room, looking for anybody you might know in a sea of unfamiliar faces and awkward conversations about nothing, pretending to have fun in your crazy party hats episode. *Instead*, take on our fun, energizing, worth your time, no holds barred festivity of real fun, real celebration, and meaningful interactions!

### **Verbal Dancing**

A highly orchestrated series of activities that ensures each participant meets at least half of the group in a meaningful way.

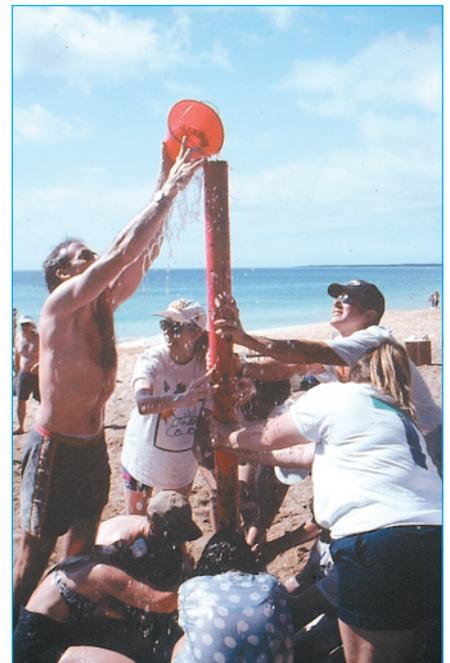

Participants can relax and enjoy themselves as they move through fun and energizing activities. *Verbal Dancing* can happen inside or outside, and with groups of any size.

### **Building Social Foundations**

Engage a diverse audience of multiple intelligences from visual spatial to logical mathematical persons in your social mixer. How? By handing over a stimulating and intense venture that requires participation from all kinds of folks. Participants create physical representations of a theme, and then integrate their own projects with other groups.

### **Water and Sun Mixer for Fun**

Get outside and cool off. A series of competitive and collaborative activities that offer pure fun, and guarantee participants get to know each other better. Activities engage different learning styles, as well as a range of multiple intelligences. Available anywhere there is water, and a place to spill it!

**Date:**

**Time:** Duration: 2 hours
